This thread discusses the Content article: County considers getting involved with Lucerne Hotel sale

I'm afraid of what this county will do with it. An Ode to Vinyards? New housing for the chairman of the BOS? A fastrack for some county favorite? I'd rather see it turn into a museum in progress for Lake County. If there is room-a picnic ground or campground if there is room. Some counties have really pleasant (as opposed to sardine can) RV parks and camps that bring in money to support itself and then some. The key woud be to keep the bureaucracy down.
