

## City of Lakeport: Failure to submit water report

Contributed by City of Lakeport  
Wednesday, 21 October 2009

The City of Lakeport, Water System No. 1710004, failed to submit the required monthly surface water treatment plant report to the Department of Public Health as required by Section 64664(a), Title 22 of the CA Code of Regulations (CCR), during the month of August 2009.

Submittal of surface water treatment reports to the Department is required to ensure that your water system is providing safe, pure and potable drinking water that meets state and federal standards.

This violation pertains to the late submittal of the regular monthly report to the CA Department of Public Health. The report details the basic treatment operations of the surface water treatment plant, which were unchanged from the month before. To ensure this report is submitted in the future by its regular monthly deadline, the City has established enhanced oversight, whereby the Compliance Officer shall provide regular deadline notification to those responsible for completing and submitting the report, as well as confirming that those reports have been submitted.

This notification of the public is being done in compliance with Section 64463.7, Title 22 of the CCR as a means of keeping the public informed.

Persons wishing more information should contact:

Dan Buffalo, Compliance Officer City of Lakeport 225 Park St Lakeport, CA 95453 (707) 263-5615 x30
