Sudoku - The numbers' game

What is Sudoku ? The Sudoku puzzle is a Japanese logic game which entered the western world in the last few months and is gaining popularity very fast. What's so special about this Sudoku puzzle ? First, the Sudoku puzzle can be anything from ridiculously easy to fiendishly difficult.

Second, it's a puzzle which comprises only of numbers. digits 1 to 9 actually. no need for math knowledge, you solve the Sudoku puzzle with reasoning and logic

What are the rules ? I see no point in playing it ... Well, Sudoku is definitely one of the more challenging can do, you must try one to understand :)

Sudoku will require logic on your side, and will develop your logical thinking and decision making, especially in the harder Sudoku boards. Tips for the beginner Sudoku player

- Make sure you have some free time ahead
 - Resist the temptation of guess and use logic instead!
 - Solving time for the Sudoku is typically from 10 to 30 minutes, depending on your Sudoku skill and experience, so don't quit if you're Sudoku-ing for 5 mins and getting nowhere
- Sudoku Books If you are serious about Sudoku, and by that I mean that you are interested in solving ALOT of Sudoku puzzles, there are books written just for you!

Sudoku books contain dozens of Sudoku puzzles.
