KELSEYVILLE – Riviera Elementary School recently held a ribbon cutting ceremony for its new kindergarten tricycle track.

During the 2006 and 2007 school years, the Riviera Parent Teacher Organization decided to make it a top priority to have a tricycle track put in next to the kindergarten playground.

After many months of planning, the group was able to break ground on the track this past August.

The hard work and generosity of many people made the track possible.

Those generous folks included Ayman Masri, who volunteered to bring in the machinery he needed to dig the track. Chris and Connie Biller, owners of Biller Construction Inc., donated their time to finish the project.

Other community members and businesses who stepped up to support the track project through donations, discounted materials and time include Clearlake Lava Inc., Kelseyville Lumber, KSO Construction, Four Corners, Tom Biller, Fred Hanson and Jim Schleif.

The result was a gift to the school's children that wouldn't have been possible otherwise.
